

## Pumpkins and Moons Paper Garland Templates

Use this template to cut out shapes from coloured paper, old book pages or even newspaper! Decorate with collage and string them together to make a garland :)

**Instructions are on the next page.**

## 3D Decoration Technique

1. Cut three moon or pumpkin shapes for each 3D decoration.
2. Decorate, then fold them back in half and stick three together in a stack.
3. Open them out, enclose string between the unstuck sections (which were the back and front of your stack) and glue shut.
4. Repeat to create your garland, adding little moons between each pumpkin if you wish.
5. Watch the video for more detailed instructions...link on free stuff page of [artstar.london](http://artstar.london) website
